

CirCarLife

**Intelligent charging solutions
for electric vehicles**

Short Form Catalogue 2016-2017

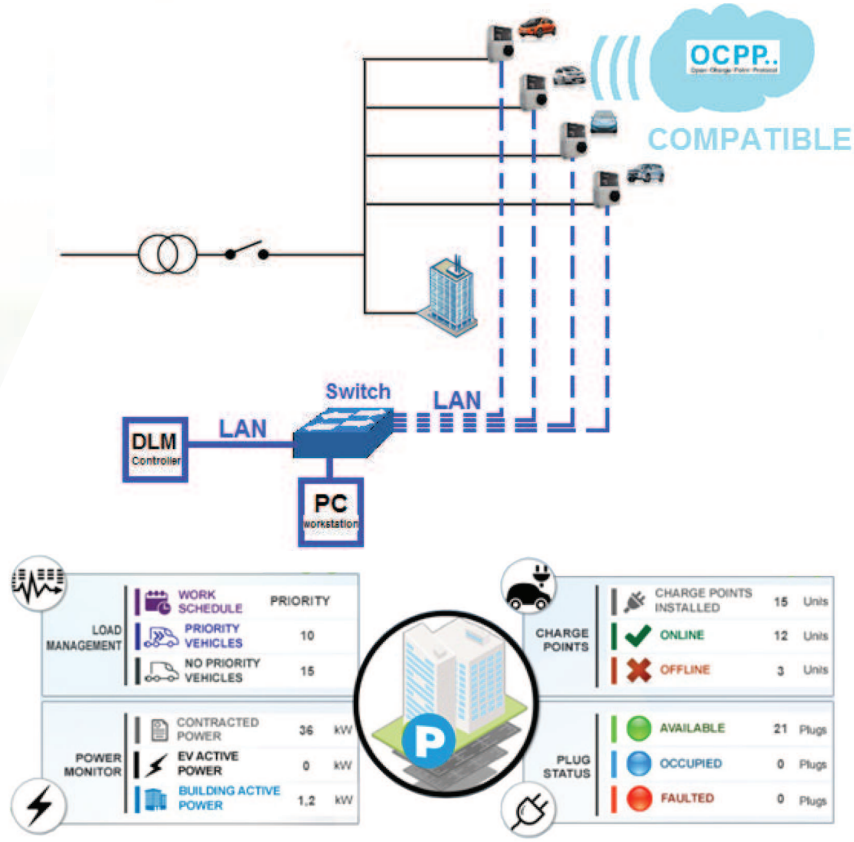

Circontrol has developed two DLM solutions (applied to WallBox Touch, Smart & Smart Dual, Smart Post & Urban Post).

DLM Standard

- **OCPP Ready:** Chargers can be controlled by a backoffice system
- **EV Charging Status:** Monitors all chargers with a SCADA screen
- **User Identification RFID:** Increases the security of the system with RFID tags
- **Power Monitoring:** Checks total power management of your installation with a SCADA screen
- **Offline operation:** In case of communications problems the system is able to keep charging

DLM Premium

- DLM Standard features
- **Building energy monitoring:** Measures the power used by the building and adjusts the power available for charging
- **EV Chargers priority:** Set up VIP chargers as a priority charging
- **Power graphic:** allows to consult chargers and building historical consumptions

DLM Standard

Power distribution between all EV Charging Stations - non exceeding the maximum allowed power or the protections.

DLM Premium

Distribution of the power for all EV Charging Stations depends on building consumption.

View of the main DLM System, where is possible to see the main functions:

- Load Management
- Power Monitoring
- Charge Point
- Plug Status

Accesorios

EV Bay Sign

Ref	Code	Description
CCL-EV-SIGN	490205	EV Bay Sign

EV Stencil

Ref	Code	Description
CCL-EV-STENCIL	490030	Stencil for EV bay

Shelter

Ref	Code	Description
CCL-Shelter	490201	Shelter

Bollard Protector

Ref	Code	Description
CCL-Bolard	490204	Bollard impact protector
